

Mike Espy is weak on immigration

Mike Espy's out-of-touch immigration positions would make Mississippi less safe. Not only does he oppose President Trump's proposed border wall, but while in Congress, he voted to waste Mississippi taxpayer dollars on healthcare for undocumented immigrants.

Mississippi needs a senator who will put their safety, health and well-being first. For more on Mike Espy's liberal immigration stances, see below.

Espy Does Not Support Building A Wall And Co-Sponsored Legislation As A Representative That Would Give Undocumented Immigrants Health Treatment And Stop Deportations

Espy Opposes Building A Wall On The Southern Border. "Mike Espy believes in a secure border and enforced immigration laws that are fairly applied to all. He does not support building 'The Wall' because the cost is not justified compared to other more cost-effective methods of immigration control. Mike believes that the separation of children from their parents is abhorrent to our sense of American decency. The contorted administrative justification of this action should not be tolerated if we are to have a country where laws are applied equally and fairly for all." ("Immigration," [Mike Espy For Senate](#), Accessed 11/14/18)

In 1988, Then-Representative Mike Espy (D-MS) Co-Sponsored H.R. 4530, A Bill That Would Amend The Public Health Service Act To Use Taxpayer Money For The Treatment Of Undocumented Immigrants. ("Cosponsors," [H.R. 4530](#), Introduced 5/4/88)

H.R.4530 - A bill to amend the Public Health Service Act to direct the Secretary of Health and Human Services to reimburse physicians and medical facilities which give emergency treatment to certain undocumented aliens and alien commuter workers.
